

Corbin Seating Company

The Northeast's Only Telescopic Seating Specialist

Gallery of Corbin Seating Company gymnasium seating projects,

Four (4) to Six (6) Tier

All of these projects were furnished and installed by Corbin Seating Company

Boston Trinity Academy

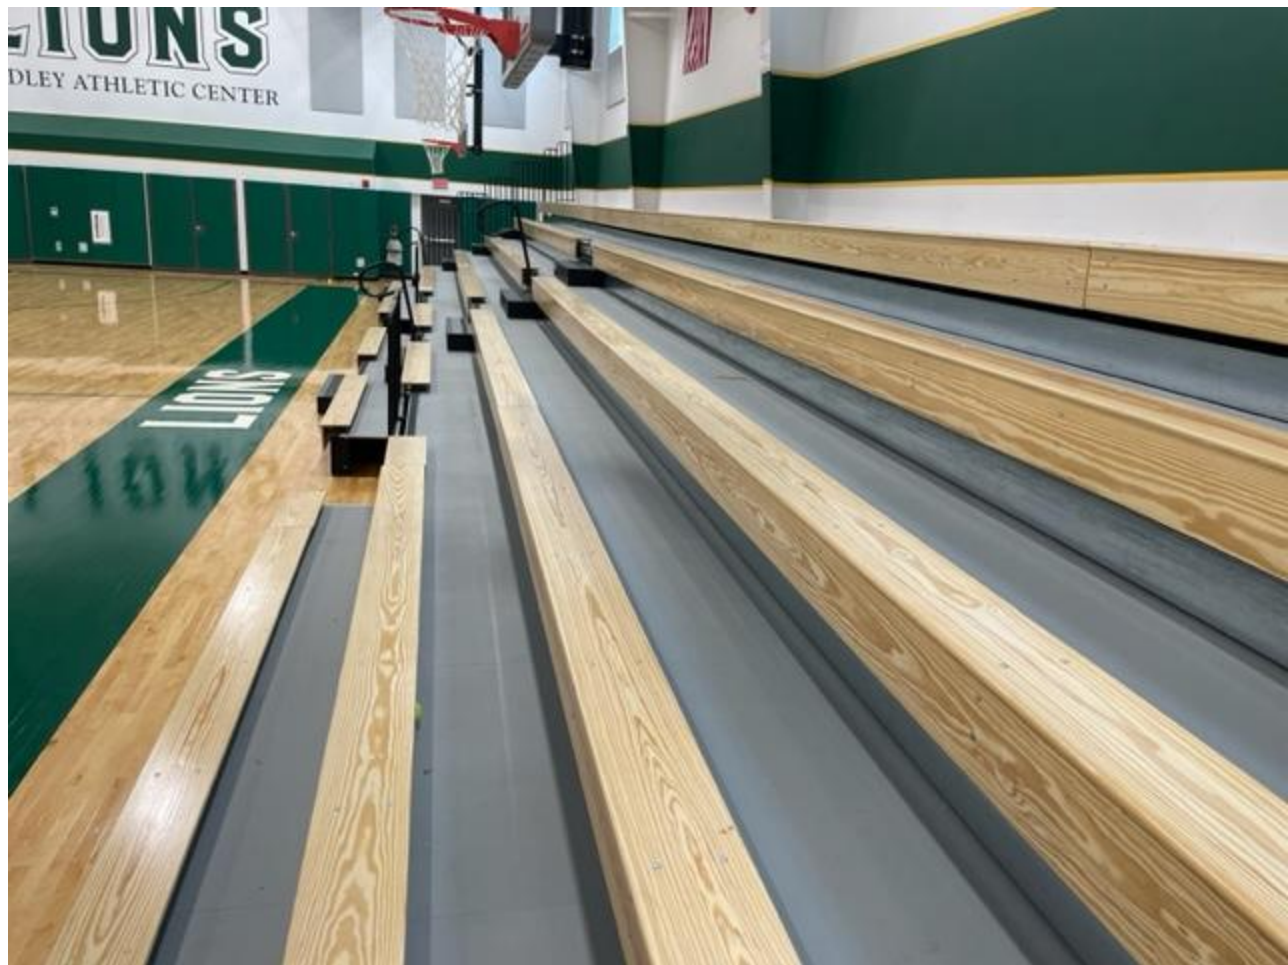

Boston, MA

The new gymnasium the Boston Trinity Academy is highlighted by their new six (6) tier, Irwin Seating Assemblies, which include power operation, handheld pendant controller, customer end curtains, and wood seating in lieu of traditional plastic seats.

Completed: Spring 2023

Contact: Richard Healy, Bowdoin Construction Corp.

LIONS

Elizabeth Hastings Middle School

Fairhaven, MA

Elizabeth Hastings MS decided to replace their old bleachers with new Irwin Seating Company telescopic seating. Corbin Seating Company furnished and installed four (4) VersTract telescoping bleacher assemblies. The assemblies included power operation, pendant controller, and end curtains.

Seating Capacity: 327 with 7 Permanent ADA Spaces **Completed:** Spring 2023

Contact: Elizabeth Hastings Middle School, Business Office

Berkshire Family YMCA

Pittsfield, MA

Berkshire Family YMCA wanted to add telescopic gymnasium seating to their basketball area but due to the columns in the gym as well as the age of the building they were concerned it was not possible. Corbin Seating was able to partner with Irwin Seating Company and Skanska USA Building to design telescopic seating that would work in the space as well as distribute the weight of the bleachers as not to stress the floor. The refurbished gym now houses four (4) telescopic seating assemblies, with manual operation.

Completed: August 2023

Contact: Rene Champoux, Berkshire Family YMCA, Facilities Director
Craig Spice, Program Manager, Skanska USA

Boys & Girls Club, Yawkey Club

Roxbury, MA

The Club will replaced their old manually operated bleachers with two (2) Irwin Seating Company VersaTract, IDS Power Operated seating assemblies, with hand-held control. Corbin Seating Company demolished and disposed of the old bleachers prior to the installation, as well as coordinated the shipment, unloading, and installation of the two (2) new seating assemblies.

Completed: Fall 2022

Contact: Al Zarthar, Director of Facilities at Boys & Girls Club of Boston

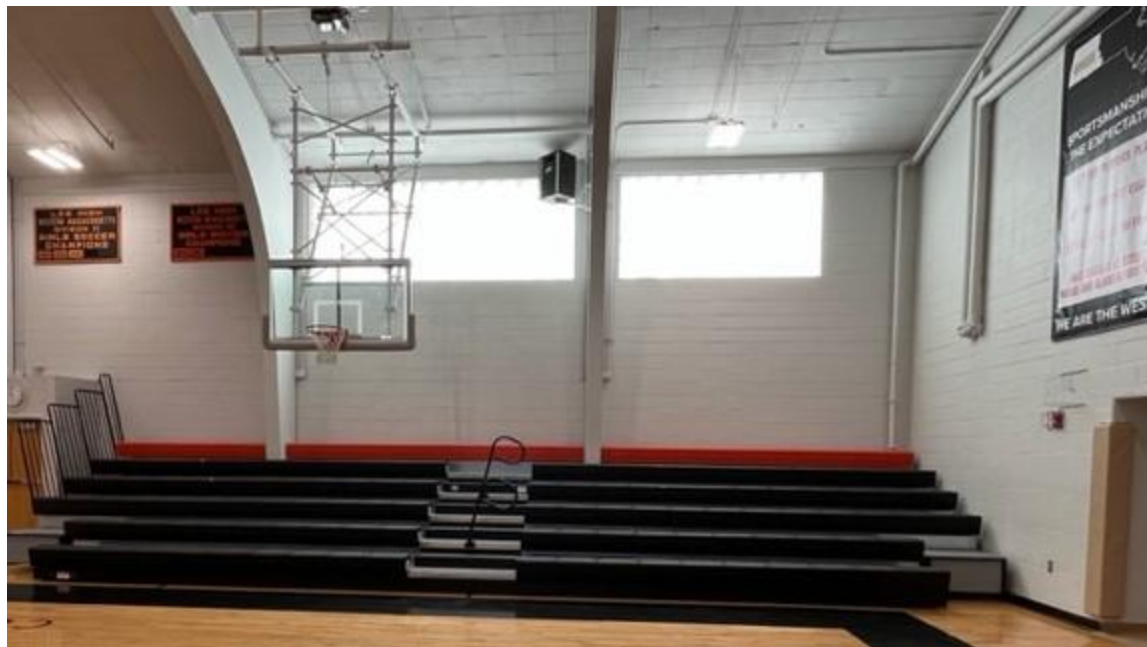

Lee Middle High School

Lee, MA

The renovation of the gym at Lee Middle High School called for new telescopic gymnasium seating as well as a repaint of the entire gymnasium. Corbin Seating Company handled the logistics of the painting as well as furnished and installed the School with their new Irwin Seating Company seating assemblies. The refurbished gym now houses four (4) telescopic seating assemblies, with power operation, handheld pendant controllers, custom end seat logos, as well as custom end curtains.

Completed: July 2022

Contact: Jordan Meyer, Lee Public Schools

Clark Avenue Middle School

Contact: David DelPizzo, Director of Athletics

Mount Greylock Regional School

Williamstown, MA

Corbin Seating Company furnished and installed Irwin Seating Company Telescoping Stands, power operated, with end curtains, and custom graphics, into newly renovated gymnasium.

Seating Capacity: 512 Completed: November, 2017

G.C.: Turner Construction

Christian Heritage School

Trumbull, CT

Under a tight time window during the basketball season of '15/'16, Corbin Seating Company replaced the antiquated wooden bleachers with power operated Irwin Seating Company Telescoping Stands. The installation went without a hitch during a weekend that had the Kingsmen basketball teams on the road. The Kingsmen came back in for practice on Monday to the sight of shiny new "Team Colored" bleachers.

Seating Capacity: 204 **Completed:** January, 2016
