New Fairfield High School

New Fairfield, CT

New Fairfield's recently developed high school included plans for a new gymnasium. Corbin Seating Company furnished and installed two (2) VersTract telescoping bleacher assemblies. One assembly includes six (6) tiers while the other has ten (10) tiers in sections 1 & 4 and nine (9) tiers in sections 2 & 3. All sections are power operated with 208/230 VAC, Three phase IDS Power System with pendant controller.

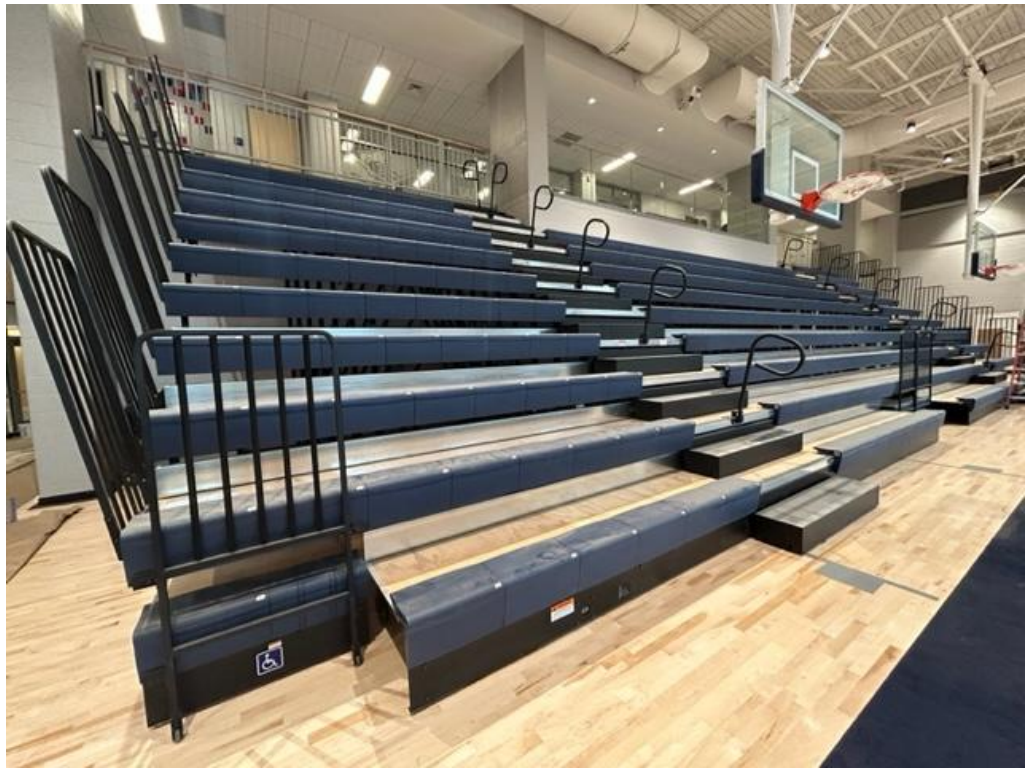

Seating Capacity: 687 **Completed:** July 2023

Contact: Jack Tibbetts, Project Manager, Connecticut Carpentry Company

Hanscom Primary School

Bedford, MA

Corbin Seating Company installed and furnished a freestanding, power operated, steerable, drive-able, Irwin Seating Company VersaTract Seating Assembly, with Integra Chairs into the multi-use space that serves as the school gymnasium and auditorium. The system travels across the entire space, to allow for stacking at the outside wall when not in use.

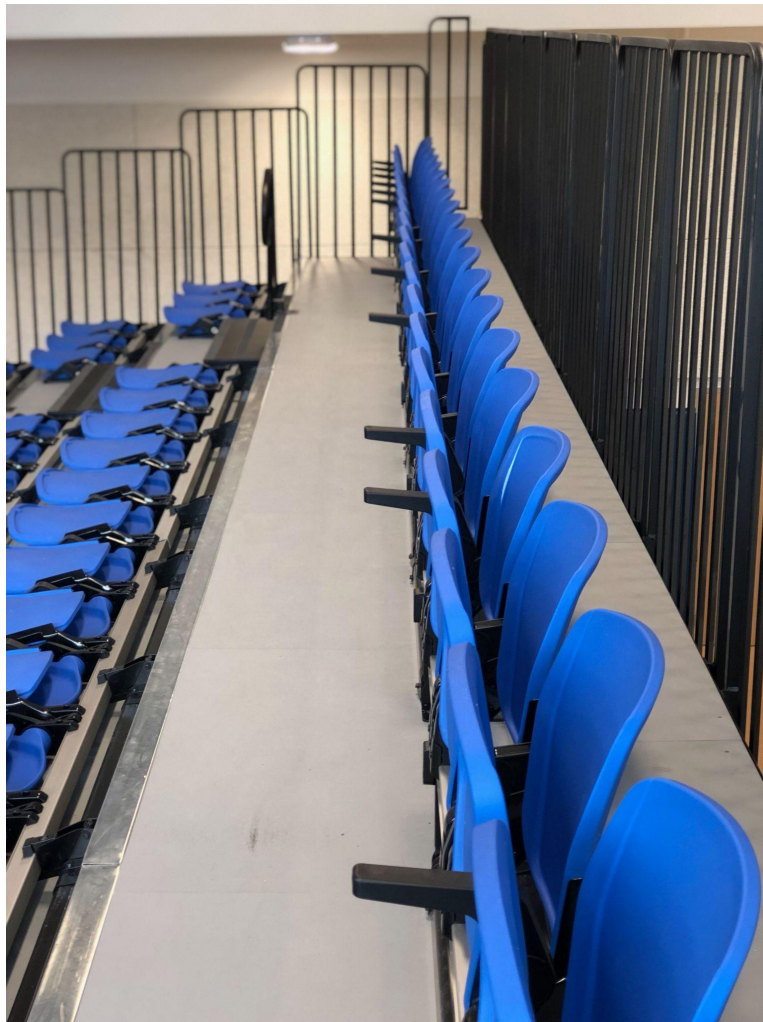

Seating Capacity: 303 Completed: September, 2019

Contact: Julie Metrick, Project Manager, J & J Contractors
