John Read Middle School

Redding, CT

As the gymnasium also serves as an auditorium space for Read Middle School's thriving Music and Performing Arts curriculum, Corbin Seating Company transformed the gymnasium space by replacing two smaller original wooden bleacher assemblies with one unified Irwin Seating Telescoping Seating Assembly, running the entire length of one side wall, with Infinity Seats and Hinged Backrests. The resultant installation offers a Performing Arts style ambience while retaining the ease of functionality of a gymnasium bleacher.

Seating Capacity: 290 **Completed:** August, 2015

Contact: Roy Lamberton, Project Manager, Pat Munger Construction Co.
