

Lee Middle High School

Lee, MA

The renovation of the gym at Lee Middle High School called for new telescopic gymnasium seating as well as a repaint of the entire gymnasium. Corbin Seating Company handled the logistics of the painting as well as furnished and installed the School with their new Irwin Seating Company seating assemblies. The refurbished gym now houses four (4) telescopic seating assemblies, with power operation, handheld pendant controllers, custom end seat logos, as well as custom end curtains.

Completed: July 2022
